SKILLS

- TouchDesigner
- Creative Coding
- 3D Modelling and Animation
- VR Development
- Video Editing
- Adobe Creative Suite

PROFILE

Creative Technologist blending interaction design with hands-on production to deliver immersive audiovisual experiences for film, live events, and installations. Proficient in TouchDesigner, Unreal Engine 5, Adobe Creative Suite and 3D animation; experienced contributing to in-camera VFX, 360° video, projection mapping and an award-winning short film, and developing documentation and workflows to streamline studio and production.

WORK EXPERIENCE

iTek Media	2026 - PRESENT
Virtual Production Artist	
- Oversaw virtual production workflows on a high-budget film set, contributing to in-camera VFX and real-time compositing. - Produced 360° video content and motion-graphics assets for immersive sequences across film and experiential projects. - Developed a structured learning pathway and documentation for studio VFX solutions to streamline best practices.	
TedXAnantU	2023
Motion Graphics Designer	
- Designed and produced motion graphics and event visuals for the university's TEDx conference. - Managed execution and delivery of content across live stages and digital channels to ensure seamless presentation.	
Anant National University	2023
Cinematographer and Film Editor	
- Shot and edited five short films, including one award-winning entry at the Sunderban Film Festival. - Led end-to-end post-production workflows, color grading, sound design, and final delivery, to meet festival submission standards and deadlines. - Managed collaborations with cast and crew to realize creative vision and ensure timely completion.

EDUCATION

Anant National University	2021 - 2025
Bachelors of Interaction Design	
• Comprehensive training in interaction design: UX research, prototyping, human-centred design, and visual storytelling. • Completed cross-disciplinary projects exploring livecoding and generative art to investigate real-time interaction and algorithmic aesthetics. • Applied rigorous research methodologies to inform design decisions and evaluate prototypes with users. • Collaborated with multidisciplinary teams to deliver interesting and exploratory outcomes.	

INTERNSHIPS

Splat Media Private Limited	2025
Interaction Design Intern	
• Designed and implemented projection-mapping visuals for live events and developed interactive 3D animations for an installation. • Built and optimized VR interactions using Unreal Engine 5, focusing on performance and user experience. • Collaborated with designers, technicians, and producers to integrate visuals into live and installation environments.	
TedXAnantU	2023
Motion Graphics Designer	
• Created and optimized social media content (graphics, short-form videos, captions) to boost engagement and promote campus events. • Coordinated with design and events teams to align messaging and maintain brand consistency.
